

A variations analysis of data linkage centres: Governance, infrastructure and funding

Kim McGrail and Emma Fuller
International health data linkage centre meeting
London, December 2008

Objectives

- What can we learn from each other?
- Are there keys to success?
- What differences make a difference?

Governance

- Mandate
- Location
- Partners
- Oversight
- Role of public
- Role of data stewards
- Who can access?

Infrastructure

- Physical
- Technical
- Human
- Data

Funding

- Source
- Amount
- User charges
- Are there research arrangements?

What next?
